Geoscience & Resource Management Studies 2024 – 2026

CNSOER Studies

- Preliminary geoscience compilation and evaluation of existing shallow subsurface data from the eastern Scotian Shelf (area within dashed outline - completion date Mar. 2025)
- Regional Hydrocarbon Resource Assessment of the Scotian Margin (pink area - completed Mar. 2024)

Other Geoscience Studies

In addition to the studies above, CNSOER staff continue to collaborate with both federal and provincial government departments and academia on a number of projects aimed at understanding the shallow-subsurface geology of the Canada-Nova Scotia Offshore Area
